---

**COVID-19 Vaccine Doses Administered Over Time**

Last updated: 10/21/2021
Clinical Updates
**Additional Dose:** an additional dose of vaccine administered when the immune response following a primary vaccine series is likely to be insufficient

- **Pfizer and Moderna:** authorized
- **Janssen:** not authorized

**Booster Dose:** an additional dose of vaccine administered when the initial sufficient immune response to a primary vaccine series is likely to have waned over time

- **Pfizer:** authorized
- **Moderna:** pending ACIP/CDC
- **Janssen:** pending ACIP/CDC

No recommendation for boosters for immunocompromised patients who have already received an additional dose. No person should receive more than 3 doses
## Booster Eligibility

</table>

*Information subject to change based on ACIP/CDC Recommendations
Heterologous (Mix and Match) Booster Doses

- FDA authorized a mix-and-match approach for booster doses on 10/20/21
  - Patients may be able receive any of the three COVID-19 vaccines as a booster dose (pending ACIP)

- ACIP is meeting today 10/21/21 to discuss the data and refine the eligibility criteria

- Continue to wait for formal recommendations from CDC
Timeline for Vaccine Authorization

- **9/22/21** • Pfizer boosters authorized
- **10/20/21** • Moderna, Janssen, and “mix and match” boosters authorized
- **10/21/21** • ACIP meeting on Moderna and Janssen boosters, “mix and match”
- **10/26/21** • FDA advisory committee meeting on Pfizer for 5-11 yos
- **10/22-10/23** • CDC makes formal recommendations for Moderna and Janssen boosters
- **10/27-11/1** • FDA authorization for Pfizer 5-11 yos
- **11/3/21** • ACIP meeting on Pfizer for 5-11 yos
- **11/4-11/5** • CDC makes formal recommendations on Pfizer for 5-11 yos

*Dates subject to change

Last updated: 10/21/2021
When to Administer

- (1) Moderna and Janssen booster doses and (2) Pfizer doses for 5-11 year olds may only be administered after the CDC has made its formal recommendations.

Resources: Interim Clinical Considerations for Use of COVID-19 Vaccine

Interim Clinical Considerations for Use of COVID-19 Vaccines Currently Approved or Authorized in the United States
**Authorized/Pending Age Groups**

**Pfizer**
- 16+ yo: FDA approved
- 12-15 yo: FDA authorized
- 5-11 yo: pending authorization
- <5 yo: ongoing trials

**Moderna**
- 18+ yo: FDA authorized
- 12-17 yo: pending authorization
- <12 yo: ongoing trials

**Janssen**
- 18+ yo: FDA authorized
- 12-17 yo: ongoing trials

Pfizer for 5-11 year olds pending FDA authorization:
- 2-dose regimen, 21 days apart
- Dose: 10 ug (0.2 mL)
- Formulation: pediatric “Orange Cap” formulation from Pfizer

Last updated: 10/21/2021
Coadministration with COVID-19 vaccines

COVID-19 vaccine may be administered with other vaccines, including the influenza vaccine, without regard to timing

It is unknown if reactogenicity of COVID-19 vaccines is increased with coadministration

- Label each syringe
- May administer vaccines in any order
- Vaccines likely to cause a local reaction in different limbs
- Preferred Site: Deltoid; Alternative Site: anterolateral thigh
Pediatric Vaccination Planning
Potential Pediatric Vaccinators in Santa Clara County

167,000+ children ages 5-11 in Santa Clara County

- Large Health Systems
  - El Camino, Kaiser, PAMF, Stanford

- County Health System
  - SCVMC, Valley Health Clinics, Mass Vaccination Sites, Mobile Vax Sites

- Community Health Clinics

- Private Pediatrics and Family Practice Physicians

- School-Based Health Clinics

- Retail & Independent Pharmacies

Last updated: 10/21/2021
Provider Onboarding Efforts

- Outreached to 350+ providers
- 100+ providers are actively vaccinating patients within SCC
Planning in Progress to Address 5-11 Vaccinations

- Expanding Vaccine Provider Enrollment (PH Pharmacy)
- Conducting survey to 600 providers through SCCMA
- Partnering with SCCOE and SCC School Districts
  - Planning for school-based clinics (MoVax)
- Allocating funding to CHCs and community-based orgs for expanded outreach and vaccination (PHD IZ)
- Creating consistent marketing & communications (PIO, PH Vaccine Comms)
- Conducting provider meetings (PH Pharmacy)
Allocation of Pediatric Pfizer Doses
California received an initial allocation of **1.2 million doses** of pediatric Pfizer to cover 3.6 million 5-11 year olds.

Allocations to occur in 3 waves:

<table>
<thead>
<tr>
<th>Wave</th>
<th>California Allocation</th>
<th>SCC Allocation</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>484,000</td>
<td>15,000</td>
</tr>
<tr>
<td>2</td>
<td>363,300</td>
<td>To be released on 10/22</td>
</tr>
<tr>
<td>3</td>
<td>363,300</td>
<td>To be released on 10/24</td>
</tr>
</tbody>
</table>

**Pedi vaccine supplied during first 3 waves for SCC residents only**

Pre-orders open to all COVID vaccine providers via myCAvax

- **Deadline**: Friday, 10/22 at 5:00 PM
Ordering, Storage & Handling Updates
Initial first week supply will be released in 3 waves

<table>
<thead>
<tr>
<th>Wave</th>
<th>Order By</th>

<td>Friday, October 22 at 5:00 PM</td>
<td>November 8</td>
</tr>
</tbody>
</table>

Minimum order quantity: 300 doses
- Place orders for whole week (one order per entity)

Expectations:
- Return to open ordering after initial pre-ordering period

Last updated: 10/21/2021
After initial pre-orders are complete, ordering process will return to normal. Please place all orders using small orders feature.
IMPORTANT INFORMATION:

- The current “Purple Cap” formulation **cannot be used** for children under 12 years of age.
- Use of “Purple Cap” formulation to prepare 10 mcg (0.1 mL) doses for 5 to <12 years old has not been studied and is generally considered to be too small for typical IM injections.
1 mL syringes must be used for booster doses
- Primary series = 0.5 mL x2 doses
- **Booster** = 0.25 mL

Ancillary kits will be revised once booster is authorized to include 1 mL syringes
- Submit request for 1 mL syringe via 213RR if needed
Moderna: Shelf-Life Extension Authorized!

- Expiration Extended!
- Additional 2 months at frozen temperature only
  - Extension does not apply to refrigerated Moderna

- Please check and update your expirations using Moderna’s Vial Expiration Date website
  - If expiration is not posted, segregate doses and mark recently “expired” doses as “DO NOT USE pending extension decision”
